Dear Mr. Miller,

can you please send me a map of the sites 1-10 , so i know were the samples were taken from in the neighborhood? please?

William,

The sampling results for your yard are attached.

A little info on this:

Sample results for the individual dioxin/furan analysis are on the first page – your sample is numbered SJRS010-A;
Some sample report info p. 5 to p. 9;
Field sample collection info p. 10 – three samples were collected from yard & mixed for analysis;
Table with all 10 residential sample results (as TEQdfMamdl/2 – ng/kg) on p. 11.

Please let me know if you have any questions on this.

Regards,
